

Bring your healthcare team home.

RICHMOND, VIRGINIA — November 13, 2025

At Home Harmony, an in-home medical practice specializing in care for older adults with complex health needs, recently announced that the practice is expanding to the greater Asheville area.

In less than two years of full operation, At Home Harmony has treated thousands of patients across Virginia. The practice is excited to bring a proven care model that delivers the highest-quality geriatric healthcare to seniors in the comfort of their own homes to a new territory.

Led by experienced physicians and advanced practitioners, At Home Harmony specializes in in-home medical care for older adults with complex needs, including dementia. Additional care team members include pharmacists, nurses, care aides and certified dementia specialists — all focused on supporting healthy aging at home.

To support the expansion into North Carolina, the Pisgah Fund has made an investment in At Home Harmony. The Pisgah Fund is an investment fund that invests in healthcare-related companies that are located in Western North Carolina's 18-county region or operating in the region. The purpose of the Fund is to provide essential capital to help grow companies and create jobs in Western North Carolina.

Will Saunders, CEO of At Home Harmony, stated, "I am grateful for the support of the Pisgah Fund. Older adults who are aging and managing multiple chronic conditions almost always prefer to stay in their own home, but the senior and their family often lack the support they need to do so safely. We are humbled to deliver our model to seniors in Western North Carolina and look forward to serving as a trusted provider in the region."

Lauren Pierce Flickinger, Fund Manager for the Pisgah Fund, said, "We are excited to bring At Home Harmony's proven care model to Western North Carolina seniors and their families. At Home Harmony fills a critical gap in services for home-based primary care and will complement the existing providers in our region with another avenue for high quality care for our higher need, harder to reach senior population."

At Home Harmony is now accepting referrals for new, eligible patients in Buncombe County and will soon be expanding to surrounding counties.

Bring your healthcare team home.

About At Home Harmony:

At Home Harmony is an in-home medical practice specializing in care for older adults with complex health needs. We get to know you and your family, and our medical team continually manages your care and helps with medications. We also provide dementia support and arrange daily personal care when needed. At Home Harmony is committed to transforming the aging-at-home experience for older adults everywhere.
